20 2025 Projects Already
Underway

Dear friends, supporters, donors and community members:

As I reflect on 2024, I am filled with deep gratitude to Allah(SWT), our donors and staff. The Amoud Foundation took incredible strides towards uplifting those in need in the Horn of Africa, East Africa and West Africa. Amoud has been able to serve millions through your generosity by continuing our mission to provide sustainable solutions to uplift entire communities with great success. Amoud's sustainable development projects include shelters, orphanage centers, schools, healthcare, medical supplies, emergency relief, water trucking and water wells in which the region is experiencing and suffering drought every other year.

Among our sustainable projects are the establishment of a housing project for IDPs in Baydhabo, AW Barre Public library in the Somali region of Ethiopia, an Emergency Unit in Borama Hospital, and 252 water wells throughout the region. There are real challenges in the lives of those we serve, including civil wars in Somalia, Sudan, the continuous drought in the Horn of Africa, funding constraints, economic uncertainty and rising community needs. Our team remains steadfast, resilient, and innovative in meeting these challenges.

Our board, staff and volunteers gave their time and our community partners stood with us every step of the way. As we look ahead to 2025, we remain committed to expanding our impact with your continued partnership. We believe everything is possible, your generosity fuels our work and inspires our vision for a better tomorrow, for that we say

Thank You Jazakum Allahu Khairan.

Message from the

*Executive
Director*

Issam Abdallah

Executive Director Amoud Foundation

As we close another impactful year—and celebrate over 25 years of unwavering service—I am honored to reflect on Amoud Foundation's journey, our vision, and the meaningful work that continues to transform lives across the Horn of Africa and beyond.

Amoud Foundation was founded on a simple but powerful belief: that lasting change begins when we help people help themselves. This belief drives our mission to empower vulnerable communities with sustainable, compassionate, and effective solutions. Our work addresses urgent needs while laying the foundation for long-term resilience and self-reliance.

In 2024, thanks to your continued support, we expanded vital programs across food security, clean water, healthcare, education, and development. Our Water for Life initiative brought clean, safe drinking water to over one million through newly built wells and solar-powered systems in remote, drought-affected regions. Our Will You Feed Me campaign provided critical food assistance to millions facing hunger and displacement.

Our Mother and Child Clinics have helped reduce the infant and mother mortality rates in the region. Our mobile clinics have distributed critical medicines and supplies to those in remote areas. Our orphan and education programs have supported those children who would otherwise not have the opportunity to learn or live in a safe, nurturing environment. Hospitals, schools, orphanages and universities are among our sustainable and development projects.

None of this would be possible without the unwavering generosity of our donors. Your compassion is reflected in every meal delivered, every child educated, and every life saved. Thank you for believing in our mission and making this vital work possible.

To our board members and leadership, especially our Founder and President, Mohamud Egal, thank you for your vision and guidance. Your commitment ensures that Amoud Foundation continues to grow strategically and serve with integrity.

Finally, as we look ahead, we do so with hope, determination, and a deep sense of responsibility. The challenges remain, but together—with our supporters, our teams, and our partners—we will continue to be a force for compassion and a source of strength for those most in need.

Jazakum Allahu Khairan, and thank you for your support!

“Whoever alleviates the difficulty of a believer in this world, Allah s.w.t. will relieve their difficulty in the Hereafter...”

Prophet Muhammad

LEAVING A LEGACY

Although long-range in nature, these contributions are significant in their present and future forms.

Each gift makes a difference by providing better educational opportunities for students, enhancing the orphanage, health, and educational facilities that attract the best and brightest minds. By making an estate gift, you can build a brighter future for students and patients which will result in affordable healthcare and better education in that geographical region of the world.

Also keep in mind that your benevolent efforts will leave an indelible mark on the world.

Amoud was founded in 1998 with the mission to impact the local and global communities by **helping people help themselves** through sustainable humanitarian projects while maintaining **trusting relationships**

To explore estate planning and gift options, please contact us, **972-871-8297** or amoud@amoudfoundation.org

you can have a life-changing
effect on someone's life.

KEY FEATURES

According to the World Health Organization, there are millions of people who have severe vision impairment. Although there are some forms of vision impairment that are not treatable, over 75% of the cases are correctable through affordable cataract surgery.

For those in developing countries, many factors contribute to the loss of vision, such as poverty, malnutrition, hygiene, and climate. All of these conditions are prevalent in the Horn of Africa. Lack of sight can prevent a child from going to school, a family member from working or being able to look after their families.

EMERGENCY DROUGHT RELIEF

The Horn of Africa is currently facing a severe hunger crisis, leaving millions dependent on humanitarian aid and have had to leave their homes. Many have had to leave their homes and are displaced. They are in dire need of your support and generosity.

Across the eastern Horn of Africa, millions upon millions are faced with acute food insecurity and severe water shortages due to extreme drought.

People have no water or food after their crops and livestock were destroyed by this drought caused by several seasons of no rainfall or very below-average rainfall for many years.

The number of people affected by the severe drought has increased in multitudes in the last year alone and those displaced internally have more than quadrupled in the last year.

The world's hungriest country, Somalia, has continued to suffer from severe drought for decades. At present, one-fifth of the population in Somalia is impacted by drought and the projections show it will just keep getting worse.

Ease the pangs of thirst and hunger for your vulnerable brothers and sisters.

Your generosity can ensure their survival with essential water and filling meals for the neediest.

EDUCATION & EMPOWER

2024 has been a tough year for Education systems around the world. Amoud Foundation believes that with education comes power.

By educating these children, you are giving them an opportunity to succeed
