# Table of Content

This year has been exceptionally challenging for all of us. We depend upon Allah (swt) and our donors for support. However, everyone has been impacted by this situation. We pray for your health, your family, and ease from any difficulties experienced this year.

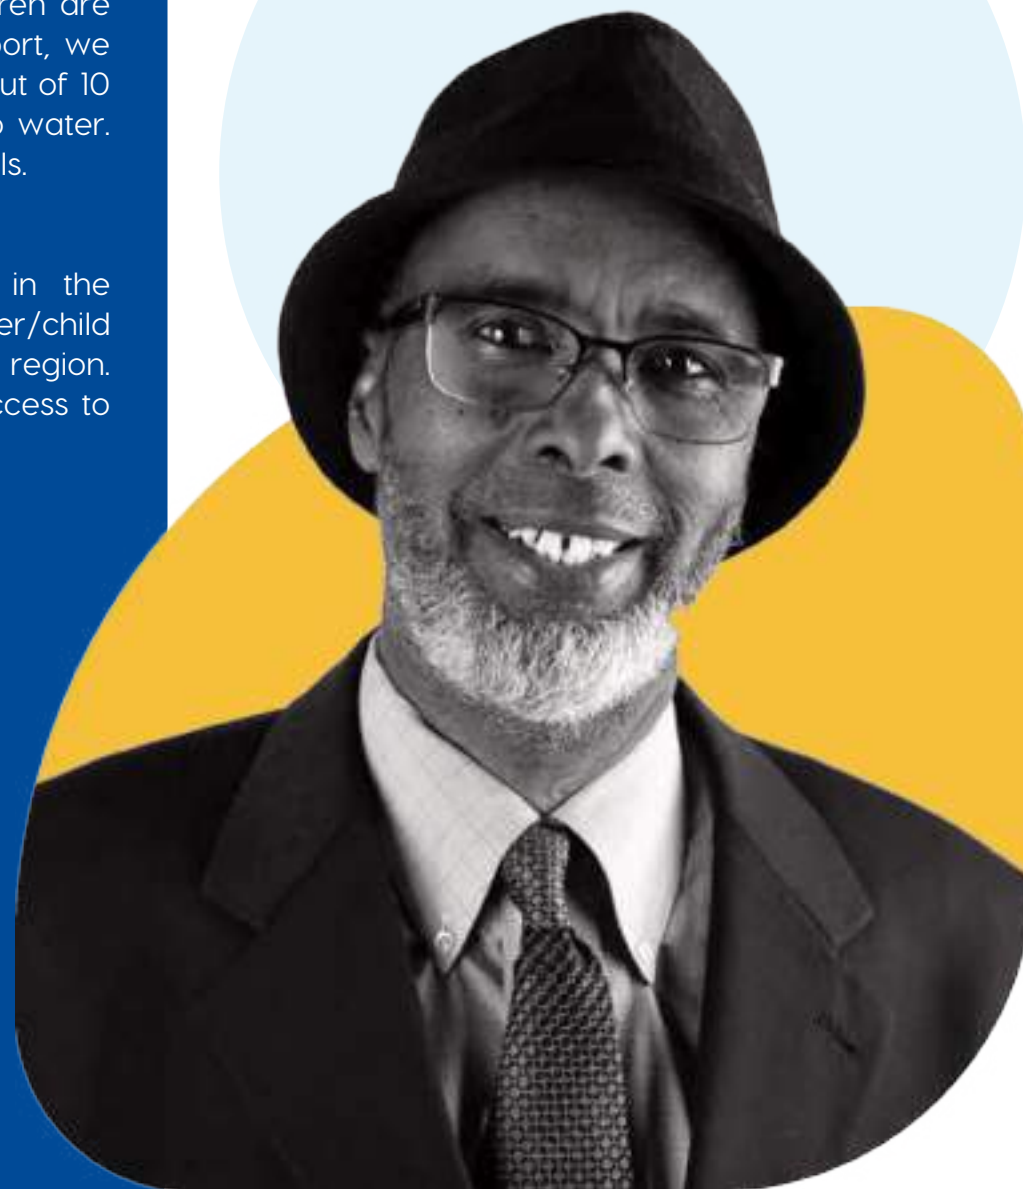

Due to this, we had to scale back on some of our operations and work overseas. We concentrated our efforts exclusively in the Horn of Africa and East Africa where there was the most need. The pandemic impacted the region that already had a limited healthcare system and resources. In addition, many environmental factors, such as severe drought, have adversely affected those in the region.

*Amoud Foundation recognizes and appreciates our donors, staff, and volunteers wholeheartedly for supporting us and being a part of this cause. Our 2022 goals will, in shaa Allah, focus on saving lives, preventing loss of life, sustainable projects in food production, and opening vocational schools. We look forward to your continued investment in Amoud and in contributing to making a difference in the lives of our most vulnerable brothers and sisters in need. We look forward to 2022.*

With security and conflict in other regions, there were difficulties many times to get the aid needed. 2.7 million people in Somalia are still dealing with food insecurity. 840,000 children are malnourished. With your support, we can try to bridge that gap. 8 out of 10 people do not have access to water. In 2021, we built 375 water wells.

Among our many projects in the region, we completed 3 mother/child clinics and 3 schools in the region. 130,000 families now have access to these facilities.

## Letter from the **PRESIDENT**

**PRESIDENT  
MOHAMOUD EGAL**

*Mohamoud Egal*

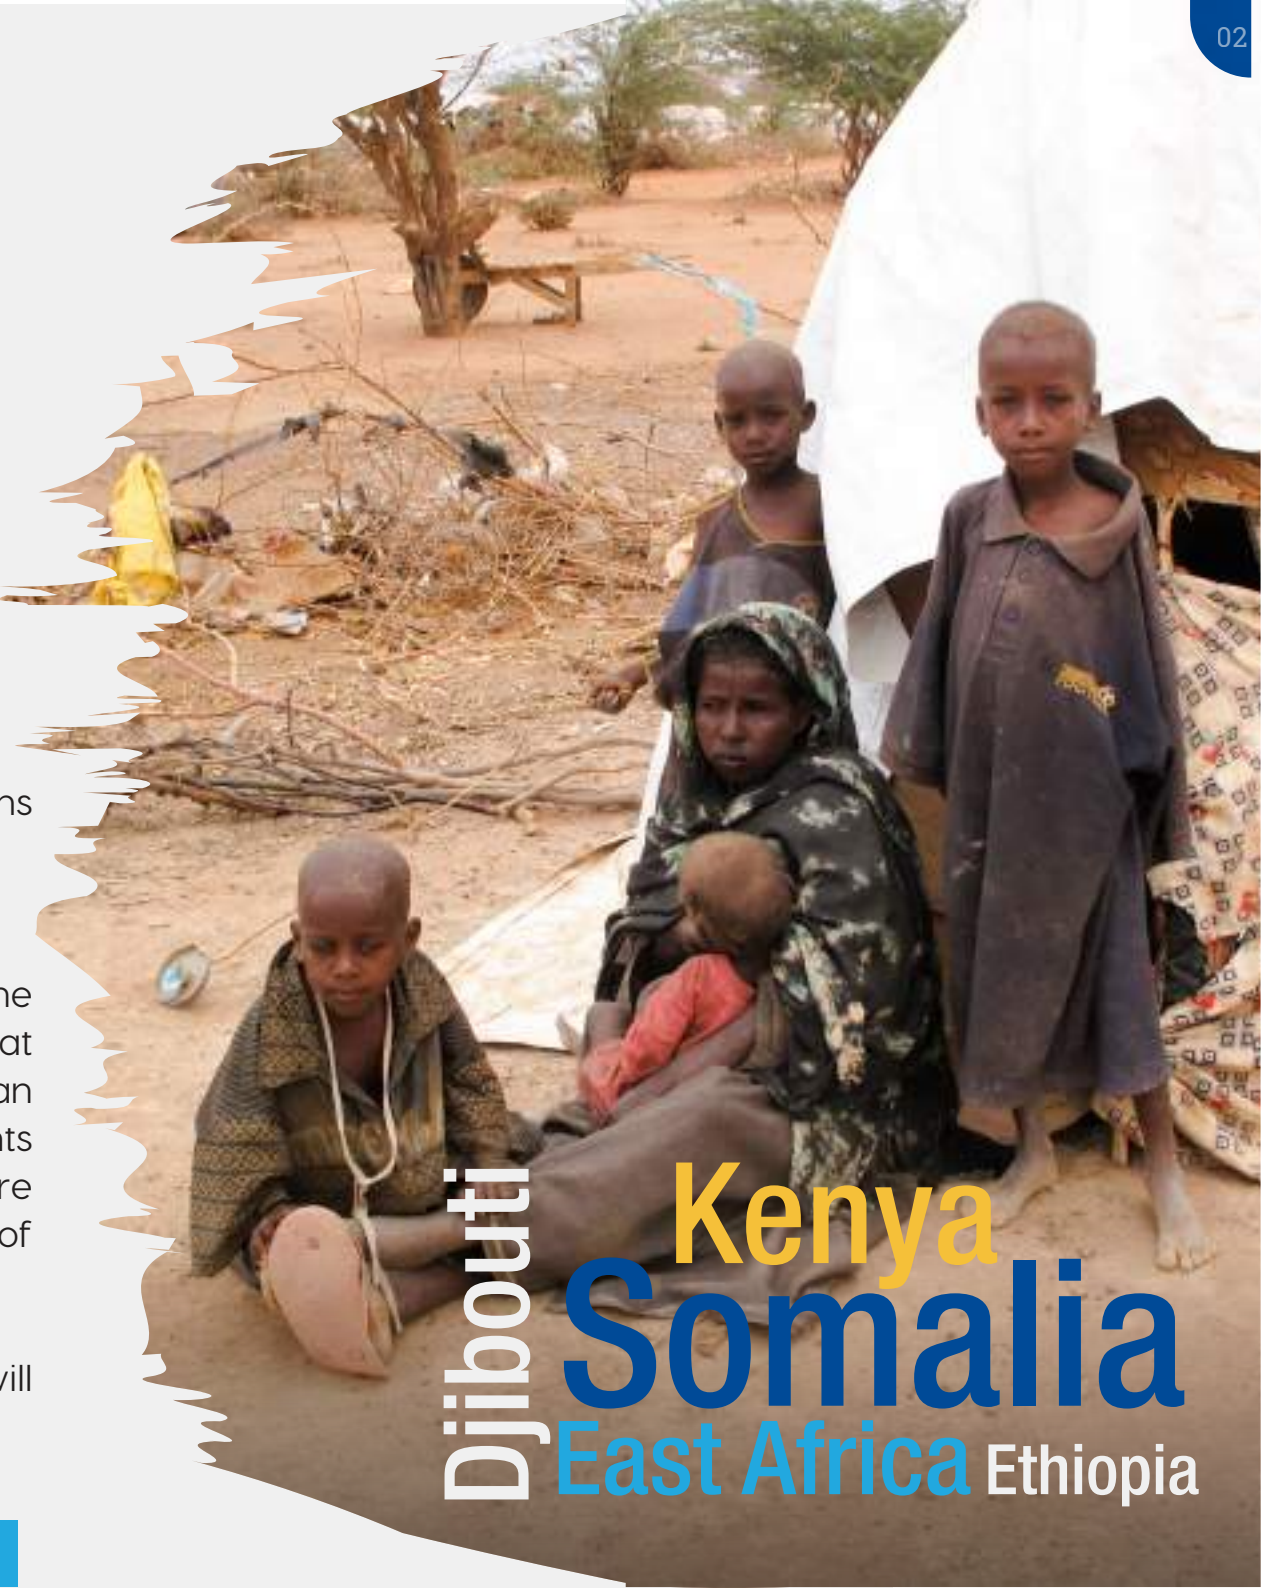

# LEAVING LEGACY

Although long-range in nature, these contributions are significant in their present and future forms.

Each gift makes a difference by providing better educational opportunities for students, enhancing the orphanage, health, and educational facilities that attract the best and brightest minds. By making an estate gift, you can build a brighter future for students and patients which will result in affordable healthcare and better education in that geographical region of the world.

Also keep in mind that your benevolent efforts will leave an indelible mark on the world.

East Africa Ethiopia

# MISSION & VISION

Amoud Foundation  
 was founded in 1998 with the mission  
 to impact the local and global  
 communities by  
**helping people** help themselves  
 through sustainable humanitarian  
 projects while maintaining  
**trusting relationships**

**WATER WELLS BUILT  
SINCE 2014**

# WATER WELL

Since January, Amoud Foundation has delivered clean water to over

# 1,000,000

*people in remote areas through our water wells and water trucking programs.*

## Help Amoud Foundation

dig water wells and provide clean water.  
One water well can sustain an entire village.

“ A water well can be built on behalf of someone as

*Sadaqa*  
Jariyah ”

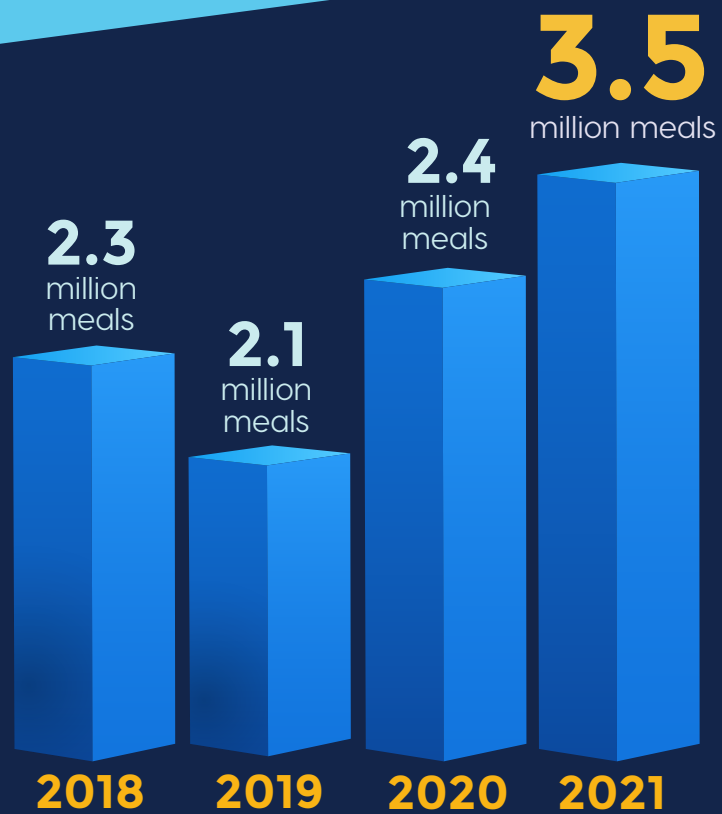

# 2 Million

## Meals Program

In the blessed month of Ramadan, Amoud Foundation provides dry food packages and cooked meals to ensure that everyone has something to eat. Our goal each year is to provide at least **2 million meals** during this time.

# YOUR SUPPORT MAKES *an* IMPACT

5 Million Meals total provided in 2021 including our food aid program.

# health care

## REACHING THE NEEDY

Amoud Foundation sent containers of medical supplies to Al Hayatt Medical Center and the Mother/Child Health Centers (MCH) so the people in the area could have access to medicine and healthcare.

life-changing effect on someone's  
life.***

# KEY FIGURES

**1500** ←  
Screened patients  
with different eye  
diseases

→ **407**  
Patients benefited  
from cataract  
surgery

→ **2000**  
patients are on the  
waiting list to be  
screened for cataract  
surgery

According to the World Health Organization, there are millions of people who have severe vision impairment. Although there are some forms of vision impairment that are not treatable, over 75% of the cases are correctable through affordable cataract surgery.

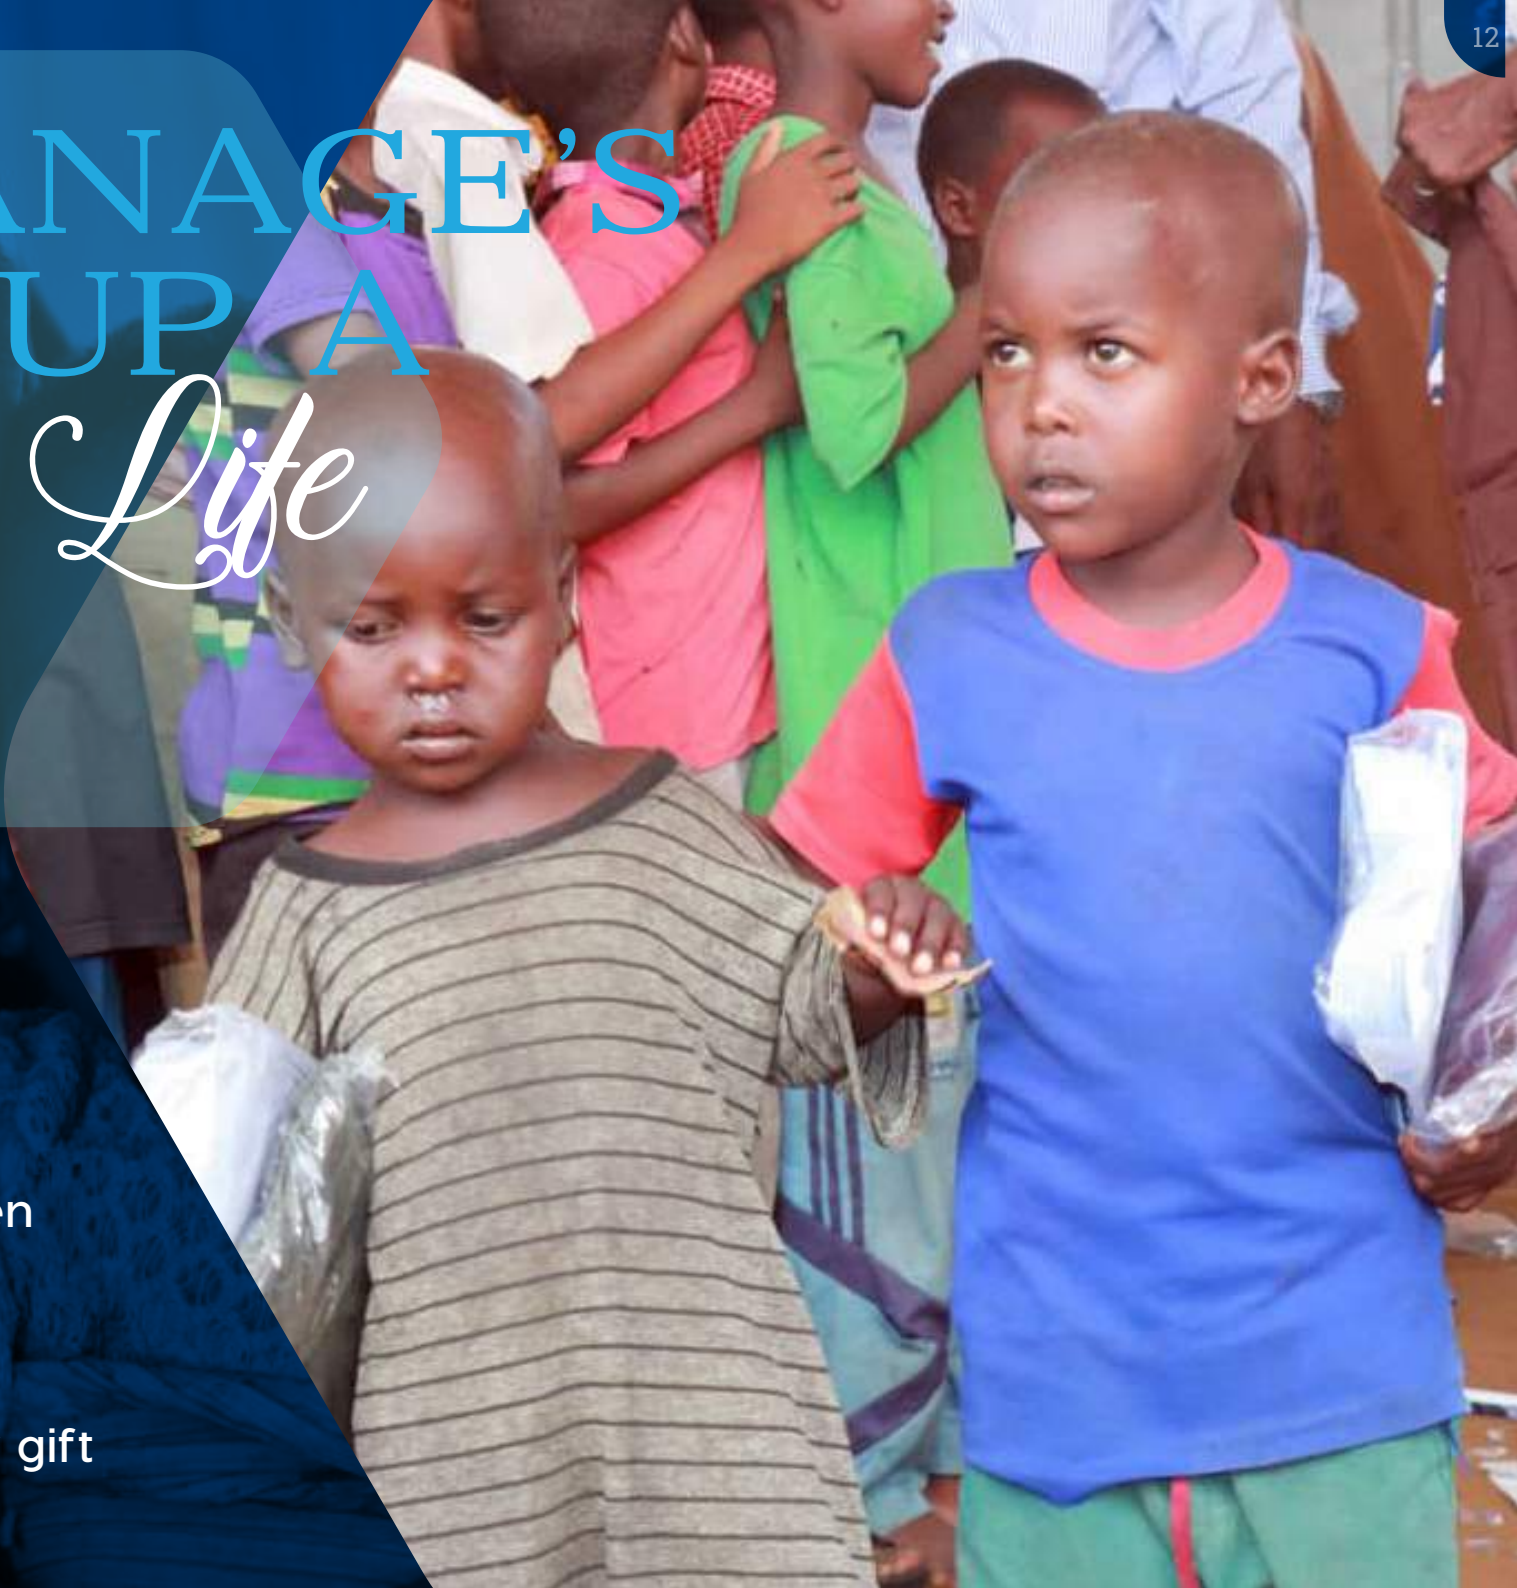

For those in developing countries, many factors contribute to the loss of vision, such as poverty, malnutrition, hygiene, and climate. All of these conditions are prevalent in the Horn of Africa. Lack of sight can prevent a child from going to school, a family member from working or being able to look after their families.

# ORPHANAGE'S LIFT UP A *Child's Life*

**SPONSORED**  
**1384**  
ORPHANS IN 2021

Amoud Foundation has been successfully supporting several orphanages in the Horn of Africa region. The children also receive a new gift for Eid each year.

# EID UDHIYA *Qurbani*

For a majority of the families, meat is consumed once a year on Eid al Adha. Amoud Foundation provides meat to **thousands of families** through our **Qurbani/Udhiya** campaign.

In 2021 **500,000** people **BENEFITTED** from your donation.

# Success

# Stories

Education is undoubtedly a source of empowerment and development for both individuals and the society. Achieving development goals in any society depends on women's participation in education. Being a student and a mother at the same time is extremely difficult in this time. Nimco Aden Muse is one of women that is facing these challenges with three children, but the most important thing is she has patience and good intentions in learning under these circumstances.

She has the responsibility to raise three children and to take care of the home and also to take care of her education at the same time. Her life is completely different than those around her. Nimco gets support from her husband, a local farmer, who is always there for her to give her motivation to finish her education successfully. The road has been rough and they are still holding on together. Nimco is 20 years old now, she got married when she was 17 years at the first class of the secondary (Batch 2017). She lives with her mother-in-law and her husband.

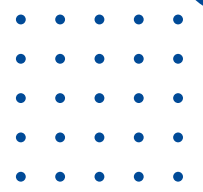

Her mother-in-law and sister-in-law help her to take care of the children while she is learning. Sometimes she misses the school for weeks because of a lack of babysitter. Nimco did not get any support from any other side of her society. Nimco's husband works on a small farm which is the only source of income for her and her family. The farm her husband worked on was affected by the recurrent drought and the Sagar Cyclone.
